General Comment

Our Co-Op request that an extension up to 120 days be granted for comments on the TMDL. A draft of this magnitude must have more time for everything to be looked at to make the items in the draft as accurate as possible. One item I know is incorrect in the draft is the amount of farm land that is being operated with no-till practices. The draft has the amount of land in no-till grossly underestimated. This one mistake alone has a great effect on loadings.
